## SKILLS AND INTERESTS

- Problem Solving
- System Automation
- Team Leadership
- Research
- Learning New Technologies
- Collaboration and Team Projects

## LANGUAGE SKILLS

- Turkish: Native
- English: Advanced

## PROJECTS

### ESN EVENT SCRAPER & AI IDEA GENERATOR

- ◊ Built a tool to scrape events from activities.esn.org (ESN Activities) and integrated AI for generating specially event ideas, enabling ESN Marmara to plan innovative events efficiently.

### MARUNGPT

- ◊ AI chatbot trained on Marmara University data to provide instant, accurate information about academic programs, campus services, and events through natural language interactions.

### MONITORIST

- ◊ Enterprise-grade platform for real-time inventory tracking and automated notifications for e-commerce businesses, featuring advanced analytics and scalable architecture.

### HAKKINIZLA UÇUN

- ◊ Filter and list flights based on criteria like duration, price range, departure, and destination, helping them find the cheapest options

### TEKNO PAZAR

- ◊ B2B marketplace for technology products with secure authentication, inventory management, and automated pricing systems.

## ESN INVOLVEMENT

### BRANDING & FULL-STACK E-COMMERCE FOR ESN MARMARA

2024

- ◊ Created a brand identity for ESN Marmara, including hoodies, t-shirts, mugs, and tote bags. Developed a full-stack e-commerce website under the name "ESN Marmara" to sell these products. The website was not launched publicly due to insufficient requirements, but the project showcased my skills in branding, front-end and back-end development, and full-stack solutions.

## VOLUNTEER EXPERIENCE

### MEMBER OF ESN MARMARA

2024–Present

### PROCOM, COMCOM, WEBCOM TEAM MEMBER

2024–Present
